EGGS

THE STORY ABOUT EGGS

Organic

Organic eggs are the most natural, fullest flavoured eggs and come from the Orpington breed of chickens. Our eggs are hand-picked from the Rhug Estate in Wales, United Kingdom.

Duck

We have selected our eggs from Mallard Ducks and in particular the Indian Runner Breed, from the USA. These Ducks can produce eggs at the same frequency as Chickens. In the early 1900's they were more frequently used than Chicken eggs, but gradually faded out of popularity. Because of their creamy flavour and subtle taste we hope to bring them back into fashion.
